

Meals on Wheels and More
Austin, TX

Thanks to the Walmart Foundation and the Meals on Wheels Association of America, Meals on Wheels and More was able to purchase and install an electronic volunteer sign-in system.

Benefits of Electronic Volunteer Sign-In System

- 100% Sign-In Rate for All Volunteers: New system requires each volunteer to sign in before receiving route sheet.
- Increased Accuracy of Sign-In Information: Volunteers are able to edit and update their personal information as needed.
- Real Time Sign-In: The sign-in software automatically time stamps every online check-in, which means a 100% accurate time of exactly when that route was picked up.
- Significant Reduction of Untrained Volunteers: When an unassigned volunteer signs in, the information is recorded and the volunteer is flagged in the system. Volunteer Services is instantly alerted by email allowing for immediate follow-up by a recruiter to schedule training.
- Saving Paper and Time: There's no need for paper sign-in logs with the new system which results in a significant savings in terms of paper used and staff time spent scanning and filing.

For more information about Meals on Wheels and More's implementation of the Electronic Volunteer Sign-In system, please contact:
